

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) A computer comprising:
 - a chassis having a front panel, a first side panel, a second side panel, and a rear panel all mounted on a base and forming a rectangular enclosure;
 - a system board attached to said chassis, said chassis having a receiving zone for a threaded fastener;
 - at least one thumb screw assembly comprising a threaded screw with a groove and a gripping accessory with a grip for matingly engaging the screw in said groove;
 - wherein said thumb screw assembly is received in said receiving zone.
2. (Original) The computer of claim 1 further including a spring engagingly surrounding said screw.
3. (Original) The computer of claim 1 wherein said thumb screw assembly is height-adjustable.
4. (Original) The computer of claim 1 wherein said thumb screw assembly can be engaged and disengaged without any tools.
- 5.-13. (Canceled).
14. (Original) A computer comprising:
 - a chassis having a front panel, a first side panel, a second side panel, and a rear panel all mounted on a base and forming a rectangular enclosure;
 - a system board attached to said chassis;
 - a component; and
 - a means for engaging and disengaging said component to said chassis;

wherein said means comprises a shank having a groove formed longitudinal therein and a retaining notch and a gripping accessory which is disposed radially about said shank and can be moved longitudinally along at least a portion of said shank, said gripping accessory can be used to turn said shank by engaging said gripping accessory in said notch.

15. (Original) The computer of claim 14 further including a spring engagingly surrounding the shank.

16. (Original) The computer of claim 14 wherein said fastener can be engaged and disengaged without any tools.

17. (Original) The computer of claim 14 wherein the gripping accessory includes a grip, the grip engaging said notch.
